

President Trump's Homeless Recovery Plan Notes from Campaign Announcement, 2023

1. Plan to confront the decisions of those who choose to squat on the streets of cities and do drugs. Those who are “deeply unwell.”

2. Our first consideration should be our law abiding, working class citizens.

3. We need professional care for those whose lives are impacted by homelessness.

4. We will work with states to ban urban camping wherever possible.

5. Violators will be arrested and given options for treatment if they are willing to be rehabilitated.

6. We will purchase large parcels of inexpensive land as a place for doctors, psychiatrists, social workers, and drug rehab specialists can work with those in need of help.

7. We will develop tent cities where the homeless can be relocated and their problems identified.

8. Work quickly to help rehabilitate those who are temporarily down on their luck back into a normal life.

9. Those with addictions and common mental health problems will be given rapid access to treatment.

10. Severely criminally mentally ill will be institutionalized with the goal of re-integration into society when they are able to manage their lives again.

11. Address the complex, underlying issues rather than housing people in luxury hotels.
